New Features

1.2.0

- Move of Test Vlass Manager to Hamilton alias archive-test
- Changes to streamline vlass deployment
- Refactoring of Vlass Manager code to allow for multiple epochs
- Correction of Vlass Manager to allow for correct use of user selected of prerequisite versions

1.2.1

- Official release of new Vlass Manager UI, includes various improvements see ticket list below.
- Update tiles for epoch 2 progress
- improved logging for imaging jobs
- ability to create duplicate products with differing schedblocks
- clean up of previously hidden manager errors
- misc. service layer changes to support new ui

1.2.2

- Vlass Manager UI improvements including pagination, column sorting, logout capability, and search filter improvements
- Removal of old AngularJS UI code from Vlass Manger code base
- Improved execution time for updateTileSummary which was causing the UI to timeout and throw bogus error messages
- Fixed a bug in the VLASS2.1 cache permissions
- fixed a bug in Dynamic Update Summary that caused it to crash when attempting to access epoch 2 information

Known Issues

Release 1.2.0 - 2020.05.14

Epic

- [\[SSA-5970\]](#) - Support VLASS: Address Issues with Epochs & Tiles

Engineering Task

- [\[SSA-5972\]](#) - Implement & Test Vlass Manager Epoch Fixes
- [\[SSA-6117\]](#) - Move 'Test' Manager from Wirth to Hamilton
- [\[SSA-6123\]](#) - 'Development' Deployment for Vlass System
- [\[SSA-6299\]](#) - Add test tiles to VLASS db

Bug

- [\[SSA-4615\]](#) - Correct the selection of prerequisite versions during job creation.

- [\[SSA-6210\]](#) - VLASS manager can't find nested QA_accepted execution
- [\[SSA-6307\]](#) - archive-test VLASS Manager weblog links should point to vlass_test

Release 1.2.1 - 2020.06.30

Engineering Task

- [\[SSA-6345\]](#) - CAS Issues with VlassMngr for new UI

Feature

- [\[SSA-5317\]](#) - VlassMngr UI improvements
- [\[SSA-6009\]](#) - show history of Jobs and Executions
- [\[SSA-6028\]](#) - Change order of "versions" in VLASS Manager dropdown menus
- [\[SSA-6338\]](#) - VlassMngr UI 1.2.1
- [\[SSA-6349\]](#) - Log parent calibration of VLASS image product
- [\[SSA-6408\]](#) - VLASS Manager Tiles tab: update status for Epoch 2

Bug

- [\[SSA-6416\]](#) - Cannot create duplicate products in archive-test with VlassMngr 1.2.1
- [\[SSA-6440\]](#) - VlassMngr 1.2.1 reports that Job creation fails... but it actually succeeds.

Sub-Task

- [\[SSA-4662\]](#) - selection on status doesn't work for quicklook images in QA tab
- [\[SSA-6007\]](#) - Result range in pagination is off - part 1
- [\[SSA-6012\]](#) - Jobs tab could have Status selection the way QA tab does
- [\[SSA-6013\]](#) - The forward and backward buttons do not work when trying to navigate through paginated tabs.
- [\[SSA-6015\]](#) - label executions that have running for longer than a week
- [\[SSA-6017\]](#) - Human-readable dates in Schedblock
- [\[SSA-6018\]](#) - improve feedback on Generate Products

Release 1.2.2 - 2020.09.08

Epic

- [\[SSA-6438\]](#) - VlassMngr UI improvements

Engineering Task

- [\[SSA-6436\]](#) - Remove AngularJS UI code from Vlass Manager
- [\[SSA-6441\]](#) - Update service layer to support 6008, 6010, 6011, and 6016
- [\[SSA-6510\]](#) - Rewrite updateTileSummary to improve execution time

Feature

- [\[SSA-6008\]](#) - Add record count to all tabs
- [\[SSA-6010\]](#) - detect ids and only return that on search (rather than pattern)
- [\[SSA-6011\]](#) - Add Epoch filters to Jobs and Executions tabs
- [\[SSA-6014\]](#) - add a logout button
- [\[SSA-6016\]](#) - make columns sortable
- [\[SSA-6444\]](#) - Job to Product historical links should key off ID and not name
- [\[SSA-6468\]](#) - Result range in pagination is off - part 2
- [\[SSA-6470\]](#) - Result range in pagination is off - part 3
- [\[SSA-6493\]](#) - VlassMngr production/test version text in browser tabs

Bug

- [\[SSA-6507\]](#) - Dynamic Summary Page does not appear to report correctly
- [\[SSA-6508\]](#) - Quicklook cache for VLASS2.1 and sub-directories for tiles has wrong permissions
- [\[SSA-6574\]](#) - Unable to view previous executions of a job in VlassMngr
